## MISSION MEETING AT TRIMBLE ST.

Methodist Women of Memphis  
Conference in Session

Today's Session Devoted to Organi-  
zation of Personal Greetings  
of Members.

## ANNUAL SERMON IS TONIGHT

Nearly 80 delegates from all the Methodist Episcopal churches (south) of the Memphis conference reached Paducah today to attend the Home Mission society meeting. At 2 o'clock the first session was held at the Trimble street church, Mrs. Sue M. Mooney, of Dresden, Tenn., wife of the former pastor of the Third Street Methodist church, is president, and presiding at the opening session. The organization, calling of the roll, presentation of credentials and a social hour comprise the day's work.

Tonight the Rev. G. W. Banks, pastor of the Trimble Street church, will preach the annual sermon. The address of welcome will be delivered by Mrs. Eva J. Washburn, of the Trimble street church. The reply will be made by Mrs. W. C. Sellers, of Memphis.

Three sessions a day will be held until the conference closes Friday or Saturday.

**Officers and Delegates.**  
The officers of the conference in attendance are: Mrs. S. F. Mooney, Dresden, Tenn., president; Mrs. D. D. Humphrey, Danville, Tenn., second vice president; Mrs. J. C. Speight, Mayfield, third vice president; Mrs. T. H. Temple, Jackson, Tenn., treasurer; Miss Ross Witherspoon, Jackson, Tenn., corresponding secretary; Mrs. D. M. Patterson, Mayfield, superintendent of press work; Mrs. A. S. Carpenter, Mayfield, superintendent of supplies; Mrs. J. H. Roberts, Jackson, Tenn., librarian.

The district secretaries here are: Mrs. E. B. Ramsey, Memphis; Miss Jennie Tanner, Brownsville, Tenn.; Mrs. Ben Thompson, Paris; Mrs. J. E. Seville, Lexington, Tenn.; Mrs. E. E. Brelsford, Paducah.

The delegates are: Miss Georgia Gates, Mrs. Stokely Hays, Miss Martha Tuggle, Mrs. Carrie Smith, Mrs. J. F. Blalock, Mrs. Louis Powell, Mrs. J. L. Richards, Mrs. W. B. Dentum, Mrs. W. C. Sellers, Mrs. L. A. Louis, Mrs. M. C. Peckham, Mrs. J. R. Ash-son, Mrs. J. W. Prescott, Mrs. J. A. Keller, Miss Margarette Scott, Mrs. W. J. Hunt, Mrs. E. O. Harold, Mrs. J. W. Craddock, Mrs. J. L. Bassett, Mrs. D. C. Newman, Mrs. V. B. Hod-son, Mrs. J. L. Lherby, Mrs. R. King, Mrs. George Lyle, Mrs. W. B. Douglas, Mrs. J. L. Rawlins, Mrs. Ellen Lanier, Mrs. Maggie McCormack, Mrs. J. Y. Peete, Mrs. H. B.

## COLD STORAGE BUILDING WILL BE ERECTED SOON

Henry H. Arenz and James E. Eng-lish have formed a copartnership to engage in the cash commission brokerage business, and have opened temporary offices at 106 Broadway. They have plans under consideration for the erection of a two story storage warehouse and office, and will let the contract for its erection as soon as they decide on the site. They have several now under considera-tion.

## FIRST GAME OF TENNIS WILL BE PLAYED TODAY

The first game of tennis will be played on the High school courts this afternoon. For the past several days all the spare moments of the High school boys have been spent in smoothing the ground, until now it is in fair condition. Today only the posts remain to be put in place and this afternoon after school hours the pupils will get the enjoyment from their work.

## WORK ON LIBRARY LAWN WILL BE STARTED AT ONCE

Work of sodding the terrace of the public library yard and patching the lawn will be done at once. President E. W. Bagby letting the contract to-day. He will consult with City En-gineer Washington in a few days in regard to paving the alley between the library property and Grace Epis-copal church.

## WEATHER FORECAST.

**CLOUDY.**

Partly cloudy tonight and Wednes-day. Continued warm. Highest temperature yesterday, 84; lowest to-day, 68.

## COMMISSION BUSY.

Washington, March 26.—On account of the pressure of busi-ness under the new railroad rate law the interstate commerce commission has set aside Mon-day as "decision day." It is planned to devote Mondays ex-clusively to general meetings, when cases heard may be thresh-ed over and at the conclusion de-cisions announced.

## BALLOON TRIP.

Washington, March 26.—A balloon trip from Washington to the Mississippi valley is being planned by the signal corps. The ascension will be made about May 1. Provisions will be taken for a three or four days' trip. The balloon will be the largest the signal corps ever used. Captain Charles Chandler will be in charge of the trip, ac-companied by four others.

## FRANCE READY.

Algiers, March 26.—Follow-ing instructions from Paris, preparation is being hurried to-day to send a column of troops to Cu'a, Morocco, if it becomes necessary for France to seize the town to enforce its demand for satisfaction for killing Dr. Mais-chauch. A flying squadron is being fitted out ready to move at the word from Paris.

## BURNS HERSELF.

Mt. Vernon, Ohio, March 26.—Mrs. Louise Wise, 62 years old, was burned to death in her home this morning. Her char-red body was found on the floor near the bed. She was an in-valid and it is believed she set fire to the bed with suicidal in-tention.

## IMMIGRATION.

Washington, March 26.—President Roosevelt today ap-pointed as members of the im-migration commission, which will investigate affairs abroad this summer, Commissioner Luther Neill, Professor Jenks, of Corn-ell University; William H. Wheeler, of California. The members already designated by congress are Senators Dilling-ham, Lodge and Larnier, and Representatives Bennett, Burn-et and Howell.

## NO STRIKE.

Panama, March 26.—There is no strike in the canal zone among the workmen. However there was a general demand of canal employes for more pay. Secretary Taft will talk over the matter with the workmen while here.

## INTOLERABLE.

Washington, March 26.—An intolerable condition is being created in Central America. From the American legation at Tegucigalpa, capitol of Hondu-ras, the report comes that Pres-ident Bonilla, after a disastrous fight at Choluta, has reorganized his army, preparing to continue the war, with Nicaragua. The triumphant announcement from the victorious Nicaraguans that Bonilla is fleeing from the country is apparently prema-ture. The report from Nicaragua sources that President Ze-laya has occupied the Honduran capital, is probably correct.

## COLLEGE UNION IDEA EXPLAINED

Institutions of Higher Edu-  
cation Belong

Effort On Part of Two Trustees To  
Compel Board to Discharge  
Principal.

HAVE DOMINATED POLICIES

It is understood that the election of High school teachers will not be gone into by the school board at the April meeting, but three principals, Prof. W. H. Suggs, Prof. C. A. Norvell and Prof. W. P. Johnson, will be elected. None of them, probably, will be assigned but the responsibility for the selection of one of the number to be High school principal will be shifted to the shoulders of Superintendent-elect Carnegie.

It is also given out that two mem-bers of the board have it in for Prof. A. M. Ragsdale for reasons not connected with his work in the school room, and they have intimat-ed through representatives of the press, who record their views, that the board will drop a certain princi-pal this year, although no formal ac-tion has been taken. It has leaked out, of course, that the principal is Professor Ragsdale. These two trust-ees have, ever since the organization of the board in January, given ad-vance information on the action of the board, before the other trustees have been apprised of the contem-plated action. Since they have hereto-fore successfully dominated the action of the board, it is generally be-lieved their colleagues will tamely acquiesce in whatever plans the two have arranged.

## Election of Teacher.

These two members, however, seem to have struck a snag in choosing a successor to Miss Jessie Rook, whose resignation has been tendered. Su-perintendent Lieb, realizing that any recommendation of his for the place would meet with opposition from the teachers, simply referred the resig-nation to the board and asked for the will of the trustees in the matter, since for him to name a temporary substitute, who would be dropped in a few weeks, would amount simply to multiplying confusion. The two trust-ees signed a recommendation, but their colleague on the committee de-clined to be bound and two names will go before the board unless a compromise is reached shortly. Sev-eral caucuses have been held during the past week.

## College Union.

What is meant by the "college union" in the rule prescribing the qualifications for principal of the High school, has bothered patrons, who do not understand the term. The "college union" is simply a roster of those institutions of higher education which make certain re-quirements for entrance examination, require a certain number of hours for graduation and degrees and come up to a standard in their stud-ies and teaching fixed by the uni-versity. There are many so-called colleges, which are really not equal to the Paducah High school. Central college is the only Kentucky institution be-longing to the "College union."

## LUNACY INQUEST FOR HARRY THAW

New York, March 26.—Justice Fitzgerald this afternoon decided to appoint a commission to determine the status of Harry Thaw's present mental condition. If the commission declares him sane the trial will proceed. It probably will take a couple of weeks before the report of the commission will be presented to the court.

## EMPLOYERS' LIABILITY ACT UPHOLD BY JUDGE.

Macon, Ga., March 26.—Judge Em-ory Speer today in a decision in the case of Lucy Snead, administratrix, against the Central of Georgia Rail-way company, upheld the constitu-tionality of the employers' liability act passed by the last congress. This decision is opposed to those of United States Judge Evans at Louisville and Judge McCall at Memphis, who de-clare the act repugnant to the con-stitution of the United States.

## CITY ORDINANCES ARE CONFUSING

General Council May be Called  
on to Reenact Many When  
Hon. E. H. Puryear Com-  
pletes Revision

AMENDMENTS ON AMENDMENTS.

It is probable that the present gen-eral council will be called upon to re-enact nearly every bit of legisla-tion now in effect in Paducah. This will be necessitated by the complica-tions, resulting from amendments on amendments to ordinances, that ren-der the laws almost unintelligible.

Hon. E. H. Puryear is working on a revision of the ordinances. They have not been thoroughly codified for some years. He is classifying the laws from the beginning, and he finds the work not only tedious but quite difficult, because succeeding councils have heaped amendments unto ordinances nullifying certain provisions and in some instances abrogating entire ordinances.

In order to make the city laws clear, it will be necessary for the general council to take those which have been amended, and re-enact them, embodying the amendments in the original ordinance, and leaving out those parts which have been rendered null and void.

Judge Puryear has been devoting close attention to this work the last few weeks, and will complete the task this summer, and possibly be-fore.

## THESE BOYS ARE TWINS BUT ARE NOT BROTHERS.

The thirteenth anniversary of Masters Unis. Orr and Walter Hills Troutman will be celebrated today at the residence of J. Wes Troutman, county assessor, 705 South Third street. The boys were born on the same day and in the same hour. They attend the same school and are in the same class. Their parents are J. Wes Orr, the grocer, and J. Wes Troutman, county assessor.

## Prisoner an Ugly Customer.

Patrolman William Rogers shot several times into the air to frighten Ed Keeling, colored, charged with whipping his wife, last evening at Keeling's home, Eleventh street be-tween Burnett and Flouring streets. The negro was supplied with a revol-ver and snapped it twice but it failed to explode. Rogers and his partner, Ernest Hall, laid in wait for the ne-gro and later succeeded in catching him.

## BRAVE ENGINEER SAVES HIS TRAIN

Lee Eaker, of Paducah, Stops  
Fast Passenger Just in Time  
to Avert Collision in Yards  
at Memphis

HE AND FIREMAN TOTTY HURT.

Memphis, March 26.—An almost miraculous escape from instant death was experienced by 200 passengers on the second section of train 103 of the Illinois Central railroad yester-day morning as it dashed at high speed into the north yards of this city. The narrow escape was hardly realized by the passengers themselves, owing to the great presence of mind displayed by Lee Eaker, the engineer in whose hands the fate of his pas-sengers rested.

The track appeared to be clear, and Eaker, with his eyes fastened on the track and alert to the oc-casion, started for the Poplar street sta-tion, and on rounding the curve near the new plant of the Merchants' Pow-er company was horrified to see a switching crew backing some mail and baggage cars from a siding to the track down which he was speed-ing.

When he made the discovery the engine was not more than seventy-five yards from the cars being switch-ed. Eaker set the air brake on the emergency, and in an instant the train was standing against the cars which obstructed the track.

The fact that the brakes responded quickly saved many lives, as not one of the passengers was injured, and none of the crew except the en-gineer and his fireman, W. C. Totty, who, after doing all that could be done to save their train, jumped to the ground. Eaker sprained both ankles and legs badly and Totty is suffering from one sprained ankle.

Eaker was lying by the track about thirty-five yards from where the en-gine was standing. He was given ev-ery aid that could be tendered him under the circumstances, but while being administered to his first ques-tion was, "How is my fireman? Is Totty hurt? He had no chance; the other train was right against his side of the cab."

Engineer Eaker is a brother of James Eaker, county jailer, and lives at Eighth and Harrison streets. Fire-man Totty lives on Goebel avenue. Both have been brought home.

## FALSE ENTRIES COUNTS UPHOLD

W. B. Smith, Former President  
of Western National Bank,  
Must Stand Trial on Next  
Thursday

SEVERAL COUNTS STRICKEN.

Louisville, March 26.—(Special.)—Judge Walter Evans in the federal court this morning sustained a de-murrer to counts 7, 8, 9, 10 and 11 against W. B. Smith, formerly pres-ident of the Western National bank, and overruled the demurrers to counts 1, 2, 3, 4, 5 and 6. The counts which are dismissed, charge Smith with the misapplication of the funds of the bank. The counts sus-tained charge him with making false entries. The penalties for the two offenses are the same. Smith will go on trial Thursday on the remaining six counts.

## LITTLE ARTHUR SIMON'S CONDITION UNCHANGED

Little change is noticeable in the condition of Arthur Simon, the 8-year-old boy, who was run down by an automobile at Fourth street and Broadway Sunday afternoon. He tested well last night, but is suffer-ing some pain today. His mother sat up with him all night at Riverside hospital. Attending physicians say his condition is not alarming, but it will require another day or two to determine whether or not he sustained internal injuries.

## BUILDING OPERATIONS ARE TAKING ON A BOOM.

The fine, open weather of the past few weeks has stimulated work in all building and construction lines, and there is not an idle man in the city. The brick yards have orders for all the bricks they can turn out, and it is probable that there will be as much building and reconstruction work done this year as there has been in any past year. The architects report many plans now under consideration.

## False Pretenses Charged.

Mary Anderson, colored, of Seventh and Tennessee streets, was arrested yesterday afternoon by Constable A. C. Shelton, charged with obtaining money by false pretenses. She is charged with securing groceries from J. J. Wilkins last winter, alleging that she worked for him.

## BIG FIELD DAY FOR COMMERCIAL CLUB

Committees and Directors Out  
on Missionary Work

Three Thousand Greater Paducah  
Badges are Seen on Streets  
Today.

STRANGERS ARE INTERESTED

I AM FOR GREATER PADU-  
CAH.  
COMMERCIAL CLUB FIELD  
DAY.

Neat badges with this legend in red are seen everywhere on the streets of Paducah today, and stran-gers and traveling men, who just dropped in and did not know what was going on, inquired the meaning of the badges. When they were in-formed they complimented the spirit. Some of them said they would sug-gest the idea to home folks. Every-one of the strangers around the ho-tels, when informed of the meaning and purpose of the 3,000 badges they saw on the streets, began to in-quire into Paducah's resources, her com-mercial advantages, and the size and growth of the city.

Broadway was full of people wear-ing badges all day. Visitors at the Commercial club headquarters all morning showed the interest taken in the Field Day.

At 1:30 o'clock about 50 commit-teen and the directors met, and after a few minutes' conference dis-persed to their respective districts. The city is divided into seventeen districts today, with a committee over each district. The committees are visiting every man in their dis-tricts this afternoon, and reports are to the effect that they are doing ef-fective missionary work.

As an example of the interest being displayed, Manager H. J. Jef-fery, of the Home Telephone compa-ny, called at the Commercial club headquarters this morning, paid a year's dues and donated the use of the telephone service for one year.

## I. C. MACHINISTS WANT MORE.

Question of Increase in Wages Now  
Up to Officials.

The machinists and blacksmiths on the Illinois Central system, including those on the Yazoo and Mississippi Valley railway, have asked for an in-crease in wages for the coming year. The present wages are said to range from 34 1/2 cents to 36 cents an hour. The advance asked for will amount to a flat increase of at least 10 per cent. The agreement at present in force does not expire until June 1, and there seems little doubt that a settle-ment of the matter will be reached amicably long before that time.

The question was submitted by the men to local officials during the past week, and has been referred to the higher operating officials in Chicago, where it is being considered. The carmen on the system asked for an advance some time ago, and a settle-ment satisfactory to them was reached last week, after a conference which was held at Jackson, Tenn.

## PLANT BURNS.

R. G. Morrow's Furniture Concern at  
Memphis Loses.

Memphis, March 26.—Three sec-tions of the two and three-story brick warehouse of the Memphis Furniture company's plant, Southern railway and Florence avenue, were destroyed by fire yesterday. The total loss to the warehouse and contents is esti-mated by officials of the company at \$105,000, fully covered by insurance. R. G. Morrow, president of the concern, was formerly bookkeeper for the Paducah Furniture company, and is a brother of Miss Emma Morrow, Sixth and Jefferson streets.

## CARPENTERS' DEMAND.

They Ask for 37 1/2 Cents for Eight  
Hour Day—Now 35 Cents.

The union carpenters are asking for a raise from 35 cents an hour to 37 1/2 cents. Their contract expires next week and has been re-negotiated.

### HIS DAY OF REST.

He never had time to rest and he  
never had time to play;  
When a man should be at his best  
he was old and wrinkled and  
gray.

He never had time to care how others  
were getting along,  
He never had time to share the joy  
of the singer's song.

He labored early and late, rudely  
pushing ahead;  
Pleasure, he thought could wait; he  
would seek it some day, he said;  
Deaf to the cries of those who strug-  
gled in vain below.

He heaped new woes on their woes,  
permitting his greed to grow.

He never had time to pause for the  
purpose of giving praise;  
He craved no public applause nor  
hunted for peaceful ways;  
He never had time to taste the  
sweetness that the lover sings,  
He never had time to taste the  
sweetness that the kindness brings.

He hurried early and late, roughly  
pushing ahead;  
Pleasure, he thought, could wait; he  
would seek it some day, he said;  
Old and wrinkled and gray when a  
man should be at his best,  
He died on the dismal day when he  
meant to begin his rest.

## NEWS OF KENTUCKY

### Railroad Men Are Out.

Somerset, Ky., March 26.—A num-  
ber of the union men of the Queen &  
Crescent shops are on a strike on ac-  
count of the failure of the company to  
discharge some non-union men. The  
boiler-makers and machinists are  
still at work in the roundhouse, but  
all the shop helpers are out. There  
are over 200 men involved in the  
strike.

### Shot for Skating on Pavement.

Lexington, Ky., March 26.—An-  
gered because Julius Cook, a negro  
boy, used the pavement in front of  
her residence for rollerskating, Mrs.  
Eva Gilbert, on West Sixth street,  
shot him, inflicting a fatal wound.  
Mrs. Gilbert, when locked up, denied  
that she had purposely shot the ne-  
gro, who, she said, provoked her with  
his curses.

### Saves Her Baby.

Hickman, Ky., March 26.—Fire  
broke out Saturday in Watson's res-  
taurant at the end of the main busi-  
ness street. The fire started in a  
back upstairs room and was not dis-  
covered until it was under great head-  
way. Mrs. Luther Watson, the pro-  
prietor's wife, was in the kitchen get-  
ting dinner when the cook discovered  
the fire. Mrs. Watson's two-year-  
old baby was upstairs asleep, and she  
ran up the back stairs through the  
flames and rescued the baby. Her  
hair caught on fire, and her arms  
were burned to her elbows. After  
much hard fighting the fire was ex-  
tinguished, but all the rooms up-  
stairs were wrecked. These were the  
railroad men's quarters. The fixtures  
and goods of the restaurant below  
were saved. Insurance on the build-  
ing, but none on the furnishings.

### Cupid Busy at Central City.

Central City, Ky., March 26.—A  
number of pretty girls are to be mar-  
ried within a short time. The first of  
these marriages was that of Miss  
Bertie Little, the pretty daughter of  
Capt. W. S. Little, which took place  
on the evening of the 23d at the home  
of the bride, when she became the  
wife of Mr. O. W. Miller, a prominent  
young business man of Baton Rouge,  
La. Immediately after the ceremony  
the bridal party left for their new  
home in the south.

The second marriage will be on the  
evening of March 27th, when Mrs.  
Ella Hendrie, one of the most popu-  
lar ladies of this city will become the  
bride Mr. C. M. Mathum, of the Cres-  
cent Coal company, of Bevier, Ky. This  
ceremony will be performed at  
Anchorage by the Rev. G. F. Bell, a  
former pastor of the bride, and Mr.  
and Mrs. Mathum will be at home in  
Central City after April 15.

On Wednesday evening next Miss  
Mary Elizabeth Freeman, the hand-  
some daughter of Capt. and Mrs. J.  
K. Freeman, of this city, will be mar-  
ried to Mr. C. W. Kramer, a prom-  
inent young business man of Louis-  
ville. This wedding will take place  
in Louisville, and Mr. and Mrs. Kramer  
will be at home in Louisville  
after April 15.

Sometime during the month of  
April, Miss Edith Brooks, one of Cen-  
tral City's fairest daughters, will be  
married to Mr. Alfred Wooten, one of  
Central City's prominent young busi-  
ness men. Mr. and Mrs. Wooten will  
reside in Central City, Ky.

## NEGROES GUILTY

### SOLDIERS OF TWENTY-FIFTH IN- FANTRY DID SHOOTING.

Commanding Officer Exonerated, But  
Men Scored in Finding of the  
Court.

Washington, March 26.—The sen-  
ate committee on military affairs to-  
day received from the acting secre-  
tary of war a copy of a telegram  
from Brigadier General McCaskey,  
commanding the department of Texas  
concerning the Major Penrose court  
martial.

The telegram says that Penrose  
was exonerated, but that the court  
found that the "shooting up" of  
Brownsville was done by members of  
the Twenty-fifth Infantry.

The following is the text of the tel-  
egram: "Major General Ainsworth:  
Major Penrose was exonerated by the  
court-martial, but the court found  
that the shooting in Brownsville was  
done by the men of the Twenty-fifth  
Infantry. Finding approved by me.  
"McCASKEY, Commander."

### START NEW ATLANTIC LINE

Shipping Trust Forms Company to  
Carry Immigrants.

London, March 26.—A dispatch  
from Berlin to the Standard says the  
North German Lloyd and Hamburg  
American Steamship companies, actu-  
ing in conjunction with the rest of  
the members of the Atlantic shipping  
trust, have founded a new steamship  
line to run between Flume and New  
York. The North German Lloyd holds  
a 40 and the Hamburg American  
line a 27 per cent. interest, the re-  
maining 33 per cent. being in the  
hands of the other companies in the  
trust. There will be a fortnightly ser-  
vice between Flume and New York  
and the new company has concluded  
an agreement with the Hungarian  
government to undertake the emigra-  
tion traffic from Hungary to Amer-  
ica hitherto entrusted to the Cunard  
company. The situation is com-  
plicated by the fact that the Hun-  
garian government's agreement with  
the Cunard company still holds good  
for seven years, but the government  
is endeavoring to dissolve this by a  
friendly understanding.

### FATALLY HURT AT BASEBALL

Collision in Game Likely to Cost Life  
of Illinois Boy.

Bloomington, Ill., March 26.—  
In a collision with a fellow player  
at a baseball game at Wapella, Hay-  
mer Beatty received injuries which  
probably will prove fatal. He has  
been unconscious since the accident.

### Condition Is Alarming.

Washington, March 26.—From  
Shanghai advices received at the  
state department, it appears that the  
ruling dynasty in China is seriously  
alarmed over the effect of the spread  
of famine throughout the country  
and the opportunity it gives to en-  
list converts to the cause directed  
against the government. The suffer-  
ing of the people is used as capital,  
it is said as the judicious assign-  
ing of want places the persons giving  
assistance under obligations to the  
societies. The government's inability  
to relieve suffering, it is said, has  
been magnified, and the hardships of  
the people attributed to lack of sym-  
pathy by the government for the  
poorer classes.

## THEATRICAL NOTES

### Mack-Leone Co.

At the Kentucky the Mack-Leone  
company last evening, gave another  
of the lighter pieces in its repertoire,  
"The Greeneyed Monster," which  
proved diverting and funny from  
"end to end," and not without a mild  
remonstrance against the divorce evil.  
The play is a good piece of writing,  
based on a probable theme with nat-  
ural action and characters that are  
drawn without burlesque or exaggera-  
tion. The company was uniformly  
satisfactory and Mr. Mack and Miss  
Leone showed to particular advan-  
tage as the troublesome young cou-  
ple.

"The Little Minister" is to be pre-  
sented tonight and should retain its  
drawing power, for, as is well known,  
this play stands by itself in stage lit-  
erature as an example of dainty fan-  
tasy and piquant comedy. Nothing  
that J. M. Barrie or Maude Adams  
has ever done has quite equaled the  
success they gained as the respective  
literary and dramatic creators of the  
charming heroine, Lady Babble,  
which Miss Leone, also, has made  
one of her most popular parts, fitting,  
as it does so well, her personality and  
comedy talents. As the "Little Min-

### Blanche Bates.

The approaching engagement of  
Blanche Bates in "The Girl of the  
Golden West," David Belasco's re-  
markable drama of California in the  
days of '49, which is booked to ap-  
pear at the Kentucky theater April  
8th, promises to be in many ways  
one of the highly important events  
of the theatrical season. The suc-  
cess of this Belasco star in this Bel-  
asco play has reached such propor-  
tions as to genuinely deserve the  
name of triumph, and there is no  
reason to believe that theater-goers  
of Paducah will not commend the un-  
usual merits of the actress and the  
offering as heartily as have their  
confreres in the largest cities of the  
east as well as Chicago, where Miss  
Bates recently concluded a four  
weeks' engagement that broke all  
previous records for attendance ob-  
taining in the Windy City. New  
York's opinion of Miss Bates' de-  
serts was shown by her continuous appear-  
ance in 457 performances at one the-  
ater, a record never even approached  
by any other female star.

against him, or to begin it in another  
state, where it can be brought on  
other than statutory charges, and so  
save the reputations of the co-re-  
spondents named by the singer, Jul-  
ian Storey, the artist, went to New  
York early today.

### The Better Life Beyond.

The observance of Easter as the  
festival of life renewed is not likely  
to fade away. It typifies a hope un-  
quenchable in the human breast of a  
better life beyond, and it teaches that  
just as the vigorous young forest  
springs from the decayed trunks of  
ancestral fallen trees and pushes as-  
piring shoots into the sunlight, every  
human life, feeding upon the past,  
transforming even its own discarded  
and buried evil into wholesome sus-  
tenance, may expand and grow up-  
ward into regions of the soul, where  
the shadows never fall.

He—"I was assaulted by two hood-  
lums." She—"Hadn't you your re-  
volver with you?" He—"Da, yes, I  
drew it out of my pocket, but I didn't  
dare to fire; I was so afraid of miss-  
ing them."—Bon Vivant.

tralian is said to have written 10,061  
words on a postal card.

## ENFORCING LAW ON WESTERN LINES

Must Unload and Water Cattle Every 28 Hours

Government Compelling Recognition and Seven Hundred Cases Are Ready.

EXECUTIVE DEPARTMENT BUSY

Washington, March 26.—The policy recently entered into by Secretary Wilson of enforcing what is known as the 28 hour law has made all the western railroads sit up and take notice. The law requires all railroads transporting cattle to unload to water and feed stock once at least in every 28 hours. Hitherto the railroads notwithstanding the existence of a less drastic statute to the same general effect, have been doing pretty much as they pleased about showing reasonable kindness to the dumb brutes entrusted to their care in the journey to the shambles. Armed with a good, strong law, Secretary Wilson has now called a halt and is making the railroads revise their methods of transporting stock.

Over 700 cases have been worked up since the law went into effect. In each case the request has been made to the department of justice to instruct the district attorney where the offense was committed to bring suit, and in case of a desire to settle to demand the full penalty of \$500. This policy, if carried out, will bring to the treasury during the year a large revenue. The cases pending involve fines to the amount of \$250,000.

A prominent attorney for one of the largest western roads, came to Washington this week to make an appearance in a case against his road. The car in question had run eight hours over the time limit. He urged that as it was a first offense and the overrun was not excessive the department might well afford to be lenient. He was asked to take a seat for a few minutes and a clerk was sent to bring in the cases against the road which the attorney represented. The clerk came back with a big armful of documents. There were 82 cases against his road. The amount involved was \$43,000. The attorney arose at once saying that he would not waste time on the single case that had called him to Washington, but would take the next train for Chicago and see that directions were issued to stop further violations of the law by the employees of his road.

The president of another big western road was here last week before the interstate commerce commission, and took the opportunity to register his objection to the enforcement of the 28 hour law. He said his road was hauling stock cars a distance of 12 miles from St. Paul. Cars loaded from the Northern Pacific had been found to have gone over the punished for what those roads have done," he asked. "You people down here ought to be reasonable in enforcing a law. I have always thought that officials charged with the enforcement of a law that works a hardship should be endowed with a modicum of common sense."

"You know the law" was the answer. "Why do you take a car that has a penalty against it? You stop doing that and you will have no more trouble. The law will be enforced. If you once or twice refuse a car, the other roads will see to it that they stop and feed and water without running over the 28 hours."

It was pointed out that in the cases that had occurred stock trains had been run ten hours past the last place where the cattle might have been unloaded. Had the law been complied with in that way many thousands of dollars would have been saved. The department has been able without much trouble to work up cases where the law has been violated. The inspectors question the stockmen who travel on the cattle trains and get their affidavits or statements so that they can be subpoenaed in case of prosecution, and there is little difficulty in making out a case where the offense has actually occurred.

The London Ladies' World has discovered that "successful people are usually quite devoid of humor."

## SCIENTISTS CLAIM CONSUMPTION IS SPREAD BY SPITTING IN PUBLIC

The bacillus of tuberculosis starts tubercles in the lungs. These cases, often and are ejected from the lungs in coughing. A dry cough will spray the air full of these germs; a loose cough will deposit the sputum on the sidewalk, where it will dry, be trodden to powder, whirled about in the wind for healthy people to breathe, and start up new plantations of these bacilli. Dr. Knopf says that an advanced case of consumption will eject about seven billions of these germs every twenty-four hours.

It is a murderous practice to spit where others may bring the infection into the house, on shoes or skirts. Where it may dry and become a powder, to be sent into the air and breathed into the lungs. If the lungs are sore from colds or any other cause, these germs settle on the sore spot and set up what is called a "mixed infection." This is the starting point of consumption, and prompt treatment is required.

An eminent authority on lung trouble advises the use of the following simple formula, which can be secured from any good prescription druggist at small cost: Half ounce Virgin Oil of Pine (Pure) two ounces of Glycerine and half pint of good Whisky. Mix and use in teaspoonful doses every four hours.

It is said that the mixture will break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients should be pure, and to avoid substitution, they should be purchased separately and mixed in the home of the patient. The Virgin Oil of Pine (Pure) should be purchased in the original half-ounce vials, put up for druggists to dispense. Each vial is securely sealed in a round wooden case, with the name—Virgin Oil of Pine (Pure). Guaranteed under the Food and Drug Act of June 30, 1906, serial number 451. Prepared only by the Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are put out under similar names and style of package. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired results.

## Whale Hunters Chase Leviathan Ten Miles, But The Pursuit Is All in Vain

New York, March 26.—The Edwards family and the remainder of Amagansett's deep sea going population was stirred this morning by the announcement that a big whale had been sighted coming up the coast at furious speed. Amagansett caught a whale last month, and the perfume of the frying vats and memory of the fortune that came out of them are still fresh.

The whaleboat flotilla, commanded by Capt. Josh Edwards, a veteran whaler of 70 odd years, has been held in readiness ever since, and to-day the boats were launched just fifteen minutes after the first cry of "Thar she blows, blows!" The bell on the storehouse tower clanged out the news, the telephone bells rang, and by the time the boats were afloat everybody in Amagansett, who had legs and could use them was on the beach to watch the race.

Five boats put out to head off the whale. Capt. Josh headed the line, and right behind crowding close on the leader came the boats commanded by Capt. Jabe, Capt. Jess, Capt. Bert, and Capt. Samuel Edwards. The whale was about three-fourths of a mile off shore and heading east at what Capt. Josh figured was a fifty mile clip. Each boat was manned by six men and they tested the tough ash oars.

"Bend your backs, bend your backs and break 'em," roared Capt. Josh, and the boats shot through the water like varsity shells. But the whale had a thousand horse power in his flukes, and was soon evident to those on shore that the whalers were not as good as the whale and couldn't head him off. It was easy to trace the whale's course, for he came to the surface every few minutes and spouted four or five times before sounding again. In the bright sunshine the white jets of water were plainly visible from the shore.

When Capt. Josh and the other Edwards failed to head off the whale they fell in behind and began to sternal chase. After a time the whale slowed down and the leading boats crept up until when off Napeague beach they were only a few lengths from the whale. They were about to try a shot when the whale gave a big spout and throwing his tail high in the air went down. The boats waited around for a half hour and then began the ten mile pull home.

Beach Black With Landsmen. Meanwhile word that another whale had been sighted had reached out into the back country, and by the time the crews turned back Amagansett beach was black with people who had driven down in every sort of vehicle to see the show.

Capt. Josh was much disappointed in his failure to land the whale. He has a contract with the New York Natural History museum to turn over to them intact the next whale he got. The whalers say that the museum people will tow the whale, if one is caught, to New York. They have had a promise, they say, of a much larger amount for the entire carcass of the whale than they could make by selling the oil and bone.

However, Capt. Josh has hopes. He believes that the whale sighted to-day is the mate of the one killed last month, and that it is ranging the coast searching for its lost comrade. He believes that it will be sighted again before long, and a sharp lookout is being kept at the life saving station by George Mulford, one of the whaling crew. Capt. Josh said that to whale that got away was much larger than the one caught last month. From the depths of his whale lore he has figured out that today's whale is 500 or 600 years old. The whale captured last month he thought to be about at its 400th birthday.

ANOTHER GIFT FOR OBERLIN. \$40,000 Donated to Preserve Memory of Boxer Uprising Victims.

Boston, March 26.—O private dispatch from Oberlin, Ohio, states that President Churchill King, of Oberlin college has announced a gift of \$40,000 from a New York donor, formerly a high official of the American board, for the establishment of a new professorship in the Oberlin Theological seminary, to be called the Shantung memorial to the memory of the relation of the Oberlin seminary to the Shantung martyrs in the Boxer uprising of 1900 in north China. Those martyrs were Oberlin graduates and missionaries of the American board.

The Origin of Easter. The word Easter, derived from the Anglo-Saxon "Eastra," or, in Teutonic, "Ostara" the goddess of dawn or spring, whose chief festival was celebrated about the time of the vernal equinox, is probably of the same root with East, signifying "bright" or "shining." The Germans to this day call April the "Ostermonat."

## DEMOCRATS WILL HAVE LOVE FEAST

When Jefferson's Birthday Comes Around

It Will Be Signal For Radicals and Conservatives to Get Together Once More.

AND SEE WHICH IS STRONGER

New York, March 26.—The celebration of the birthday of Thomas Jefferson on April 13 in this city means the opening of the battle between the conservative wing, the radicals dominated by William J. Bryan and the forces of William R. Hearst for the control of the next National Convention. All three are to give dinners on the same evening, and that a keynote will be sounded at each goes without saying.

The conservatives will celebrate at the Waldorf. Alton B. Parker will be one of the speakers. This dinner will be under the auspices of the Democratic club. While that organization was rehabilitated by Richard Croker during the early part of the city administration of Mayor Van Wyck and despite the fact that Croker and his friends remained loyal to Mr. Bryan, the club, nevertheless, is about to start a propaganda hostile to the Nebraska. It is, however, without much influence. The Independence league of Mr. Hearst will give its dinner at The Savoy. Delphin M. Deinas will make the principal speech. He placed Hearst in nomination at the St. Louis convention in 1904. The Brooklyn Democratic club will dine Mr. Bryan. This dinner will be attended by national party leaders from all over the country. The borough of Brooklyn, while a doubtful one politically, was carried twice in succession by Mr. Hearst for mayor in 1905, and governor in 1906. Bird S. Coler, the president of the borough, is a warm admirer of Mr. Bryan.

An absorbing topic of interest and import is along just what lines the fight inside of the Democratic party will be conducted. What keynotes will be sounded? There are some leaders who think that they will be very mild, that the Democrats will cease to wash their dirty linen in public. Instead on all sides there will be a quiet hunt for delegates, and no bitterness is apt to characterize the next national convention. The Bryan men believe that the conservatives should turn the party machinery over to them in 1908 without a murmur if they lose the fight for delegates. That it is due them in return for the support given Judge Parker. They go on to urge that if it had not been for the appearance of Mr. Bryan on the stump in Indiana and other western points, the entire Democratic campaign in 1904 would have collapsed.

Fight Bryan's Name Only. It is not probable, however, that the conservative wing will be mild in its opposition to Mr. Bryan as a standard bearer in the next presidential contest. This would be quite the converse of what some of the leaders have said. In connection with that, however, it is proper to add that personalities will not figure. Whatever fight will be made is to be on the issue of Mr. Bryan, and not the leader, himself. If it be a losing one and the fact is generally conceded that Mr. Bryan at the present time is far in the lead, no such bolting as characterized the campaigns of 1896 and 1900 will be resorted to. The entire east is friendly to the Nebraska, as an able, honest man.

But it may be depended upon that the conservative leaders will put up a stiff fight against him, and the keynote of it all is apt to be sounded at the coming dinner. Stated briefly, it will be that the encroachments of President Roosevelt on the Constitution have created a sentiment for a conservative man, who will be content to discharge the duties of the presidency without making radical departures. This is absolutely necessary for the prosperity and well-being of the country. The probabilities are that Mr. Roosevelt will have enough power inside of the Republican party to keep it from conservatism. If the Democrats, therefore, take advantage of the situation, it is possible that they may win. From those in a position to know it is said that most of the speech of Judge Parker will be devoted to the tendency of the president toward usurping the rights of congress, the prerogatives of the states and his going beyond the powers of his office as laid down in the constitution. Whether the tariff will occupy a prominent place in the speeches has not as yet been indicated. There are conservative Democrats here who think it ought to, and hope it will. They believe that it

### The United States Government Report SHOWS Royal Baking Powder of maximum strength, pure and healthful

ROYAL BAKING POWDER CO., NEW YORK.

is the only present day issue which the public thoroughly understand, and, furthermore, that the Democratic position on the subject is the most popular one.

Mr. Bryan in his speech will throw no sop to the conservatives. He believes that the platforms of 1896 and 1900, for which he is responsible represent the true principles of Democracy, and it is only with them that the party can win. He does not think that shaping issues just to meet erial elements of public sentiment will ever avail the party.

Daily Thought.  
Those who make a sword of their tongue must expect to be cut occasionally.

RURAL FREE DELIVERY.  
It was only a few years ago that the extension of the then experiment of rural free delivery met with fierce denunciation as a party measure, designed to give employment to more men, to increase federal patronage and fasten on the country more firmly a great national political machine. The center of the heated opposition was found in the country hamlet, where the storekeeper was postmaster, and his place of business the forum of public opinion. It may be true that practical politics dictated the encouragement of the rural free delivery, but back of it all was something better than mere politics, as the demands for further extensions, the interest of the farmers in the efficiency of the service and the popular support of the measure to increase the pay of the carriers testify. Now the farmer has his mail delivered at his door every day, rain or shine, and he gets his daily city paper. He is in touch with the world's affairs as his father never was. His daily reading has broadened his horizon, and put him into active sympathy with other interests in his country. Following the extension of the rural delivery comes the movement for better roads. The government will not send its carriers over routes, the patrons of which are negligent of the highways. To get more efficient service of mail the farmers must provide better roads. When they get better roads they can haul their produce to the market whenever the market is right. They can visit their neighbors in the bad weather, when they can not work on the farm. Social life in the country, with all its blessings, is promoted by the rural free delivery, which also provides a wider range in

topics of conversation by carrying the daily papers to the farm house.

Treatment of the insane by water with the idea of washing away insanity germs will be an innovation in the new quarters for the insane at the Philadelphia almshouse, which will be opened on Wednesday. Dr. Copley, director of the department of health, is confident of the success of the movement.—News Note.

Wonder that Dr. Copley never thought of washing the patient's brain with a solution of Paris green. That is the way they kill potato bugs. Insanity germs must be that big, anyway, where Dr. Copley is.

The presidential succession is to be determined by the success of the matrimonial matches, which Secretary Taft chaperoned in their infancy. If all those couples, who attended him on his oriental trip, live happily during the next 12 months, the big war secretary may be president. It's a delicate political situation, and we observe that Mr. Taft is not taking any unmarried people of opposite sexes on his Panama trip this year.

Democratic editors and Democratic politicians are consoling themselves with the belief, that the Republican party in Kentucky is split. The Louisville papers, with their usual progressiveness have undertaken to promote a schism. It is a lovely plan to make the Democrats forget that there is a factional row in their own camp.

And now those papers that were lauding Joe Blackburn's Democracy a few days ago and rather intimating that it was gracious on his part to accept a position under a Republican administration, are snarling at his prediction of a Republican victory in Kentucky and Taft's nomination. O, Joe, these are your friends.

William Randolph Hearst has joined forces with Mayor Dunn, of Chicago. Now we know he is done.

A lie may be dressed up to look like the truth. The truth with ornate decorations is always a lie.

Alas, the Chicago Evening Post, usually a well-balanced and self-possessed journal, has lost its head. For instance:

"Somehow or other the impression once prevailed, out here at least, that Mr. Jerome was a great lawyer, but his recent actions, and the manner in which Mr. Delmas has handled him have torn great rents in this belief and left us only the tattered remnants which flutter pathetically in the bleak winds of March. By his treatment of Evelyn Thaw during her cross-examination and by his subsequent more or less futile although tricky actions, the state's lawyer has won, not the admiration, but the contempt of a large majority of the people. Whether or not he is fighting a losing battle is aside from the main issue, for defeat can be as honorable if not as much acclaimed as victory. Mr. Jerome, however, has discarded honor as a hampering garment and has staked everything upon the final outcome of guile or not guile. His friends will regret the methods to which he has seen fit to resort. They reflect credit on neither the man nor his office, and whatever may be the verdict in the Thaw trial Mr. Jerome has lost the respect of thousands who once admired even if they did not know him."

What would you have Mr. Jerome do? Place the hysterical tumult of the yellow sheets above his sworn duty and throw up the sponge? Surrender, with apologies, to the wily attorney for the defense? Sit silent and inactive and allow the defense to perpetrate any bit of theatricalism and cooked-up sensation it may have a mind to without seeking to puncture it? What do you think a prosecuting attorney is for, anyhow? Besides, do not forget that it was not Mr. Jerome but Mr. Delmas who had Evelyn Thaw "expose her soul" and lay bare the scandals of her life. Mr. Jerome merely cross-examined her.—Courier-Journal.

WHY NOT PASSENGERS, TOO?  
Dispatches tell of the going into commission of the "first fire-proof American mail car, practically all steel," on the Pennsylvania railroad. The dispatch concludes: "The life of the postal clerk aboard the new car will be as safe as that of a traveler board a Pullman."

Which is only as it should be. The risk of death and maiming incurred by the railway mail clerk is second only to that faced by the occupants of the engine cab.

Engaged in the public service, every safeguard suggested by human ingenuity should be provided for their protection, regardless of expense.

Why should not the passenger be accorded the same protection. The holding up of the Pullman as a standard of railroad safety is both truthful and significant.

The construction of the cars is

more costly than that of the average egg-shell passenger coach. The dead-weight they put on the engine is much heavier. But so much more successfully than the all-wooden coach do they resist the impact of a collision of fire, that people able to afford the price rarely grudge the extra tariff in view of the added protection.

The railroads resist these and similar improvements, because of the heightened expense.

In the long run, a reversal of this policy would mean increased dividends.

The trend of public sentiment is, moreover, unmistakable.—Atlanta Constitution.

TWO YAQUI KILLED.  
Indians Fight Battle With Mexican Soldiers Near Guaymas.

Guaymas, Mexico, March 26.—A bloody fight occurred north of here yesterday between a band of Yaqui Indians and soldiers and rurales, in which two Indians were killed, several were shot more or less seriously on the soldiers' side. The battle took place in the hills of the Barrigona district, near Bacatote. In their fight the Yaqui's left in their camp two little boys about 7 years of age. They were taken by the soldiers.

The Indians carried all their wounded with them, but left the two dead bodies, and also abandoned their camp, which contained all their supplies and belongings, and also some plunder taken. The soldiers, under command of Col. Villareal, are reported to be in pursuit of the fleeing Indians, who, it is thought, are seeking reinforcements, and another engagement is expected.

N. C. & ST. L.  
Will Commence Building Trestle Over Island Creek in Short Time.

As soon as the water subsidies and the weather settles work will be commenced on the extension of the Nashville, Chattanooga & St. Louis tracks from the Ferguson & Palmer mills, Third and Broad streets, across Island creek to the new glass plant at Mechanicsburg. The extension will be trestle work several hundred feet long, and will cost, approximately, \$20,000. It is understood an effort will be made by the road to extend its delivery tracks to the other mills in Mechanicsburg. At present the switching charge in Mechanicsburg is \$5 on account of the roundabout way the cars have to go; but with two roads in there the price may be cut to \$2, the same as charged on this side of Island creek.

COAXED DAUGHTER.  
New York, March 26.—With kisses and coaxing, Theodore Schmidt, a helpless paralytic induced his six-year-old daughter to place one end of a rubber tube on a gas jet and the other end in his mouth and turn on the gas. Schmidt thought he was a burden to his wife, and made plans while she called on a neighbor. When she returned she found him dead.

March Is a Trying Month.  
"Nor love, nor honor, wealth nor power,  
Can give the heart a cheerful hour,  
When health is lost. Be timely wise,  
With health all taste of pleasure flies."

March is conceded by local physicians to be the worst month in the year in Paducah, in the point of the extent of sickness. The quick changes in the temperature, warm one day, chilly, with penetrating winds the next affect the physical condition probably more than any season of the year.

The only safeguard therefore is to get yourself in good condition. The liver, the blood, the kidneys, the skin should be in first class order or you can not stand the trying month. Osteopathy, quickly naturally restore any disarrangement to any of these essentials of good health. The torpid liver, the disordered kidneys, the poor blood supply or circulation readily yield to its health giving methods.

The treatment is simplicity itself, sane, rational, without the use of harmful drugs. It cures by scientific manipulation to restore the normal functions to each organ. It recognizes, appreciates and uses proper diet, air, water, exercise and other natural hygienic measures, too.

A true saying is "Seeing is believing," so I shall be pleased to refer you, if you are interested, to any number of people you know well who can attest to the virtues of the treatment in liver, stomach, bowels, rheumatic, asthma, malaria, neuralgia and nervous condition.

Call me at 1407 or call at my office, 518 Broadway, at any time between 9 and 12 a. m. or 2 and 5 p. m. Dr. G. B. Froga.

AT METROPOLIS.  
Two Couples Are United in Wedlock—Want Laws Enforced.

William P. Mannus, 21 years old, a ship carpenter, and Josie Pearl, 18 years old, both of Paducah, were married yesterday by "Squire Liggett at Metropolis. Today Robert H. Atkinson, of Hardinsburg, took to himself his third wife in the person of May S. Atkinson, of Brownsville; "Squire Liggett officiating.

Members of the Methodist church met at the church last night and adopted resolutions calling on Mayor Elliott to enforce the closing ordinance.

DEWEY TO RENT HIS GIFT HOME. Wife's More Comfortable and Comfortable House to Be Occupied.

Washington, D. C., March 26.—Admiral and Mrs. George Dewey have decided to move from their residence at 1747 Rhode Island avenue, to Mrs. Dewey's old home, at Sixteenth and K streets. They will rent the house they now occupy. The house was presented to the admiral by a large number of Americans as an appreciation of the valor he displayed in the battle of Manila bay. It was large enough for the bachelor state the admiral was in when it was offered to him, but is entirely too small for himself and his wife, especially in view of the large social demands made upon them. Moreover, the house never has been satisfactory, and it has been occupied merely because of Admiral Dewey's desire to show his appreciation of the kindness of those who contributed to its purchase. Mrs. Dewey's home, at Sixteenth and K streets, is much more comfortable and comfortable, and will enable the admiral and Mrs. Dewey to arrange social functions in keeping with their wishes.

CITY COMPROMISES. General Electric Company Pays \$304 Penalties.

Penalties were paid the city by the General Electric company for delays in shipping machinery for the city lighting plant, amounting to \$304. The city lighting plant was greatly inconvenienced by the failure of the globes and other portions of machinery to arrive on time and the fixed amount of damages by the board of public works was \$965. The recommendations for a settlement of the account, \$3,386, will be made at the next meeting of the general council. Mr. Alley, representing the electric company, personally made the compromise with City Solicitor Campbell, acting for the finance committee.

SEWER WORK. Has Progressed to Point Where Completion of Main is Predicted.

Work on the main sewer of district No. 2 has progressed so far that predictions of its completion within a month is possible. The trench is nearly to Jefferson street on Twelfth street. It will be run out Jefferson street to Thirtieth street and thence to Clay street. Another line will extend out Kentucky avenue to a point even with the end of Thirtieth street. After that is completed laterals will be run on the intersecting streets.

### YITTLE SUSIE CABELL DISLOCATES SHOULDER.

Little Miss Susie Cabell, daughter of Mrs. W. N. Cabell, of Madison street, fell yesterday and dislocated her left shoulder. She was playing during recess at St. Mary's academy on North Fifth street and slipped and fell on her shoulder.

### Big Salt Block Burns.

Hutchinson, Kan., March 26.—The Morton salt block belonging to the Hutchinson Salt company, the so-called salt trust, is said to be the largest salt block in the world, was destroyed by fire last night. The loss is estimated at half a million. The fire started from the explosion of a coal oil lamp.

### Miss E. L. Lamb Dies.

Miss E. L. Lamb died yesterday morning at 9 o'clock of consumption, at her home in Symsonia, Graves county. She was 30 years old and had been ill about two months. One brother and a sister survive her. The burial took place today at the Clark's river cemetery in Graves county.

## PEOPLE AND SOCIAL EVENTS

### Some Attractive Features of the Flower Carnival.

Especially attractive features of the Carnival of Flowers to be given April 5, at the Kentucky theater for the D. A. R. Memorial Fountain fund, will be the three solo dances. Little Miss Susan Porter Steeth, three years old, will have a doll dance that will captivate the audience. She will be in costume and the doll is almost as large as the tiny maiden herself. Miss Charlotte Wheeler will dance a pretty flag figure as a solo feature. And Miss Mildred Orme in Spanish costume, will give a graceful Spanish dance.

In evidence of the decided interest that is being taken in the event the four boxes have all been sold. One will be occupied by Mayor D. A. Yeiser and the board of aldermen, showing that the administration is in hearty sympathy with the D. A. R. movement to put fountains throughout the city.

### W. C. T. U.

The W. C. T. U. will meet Thursday afternoon at 3 o'clock in the lecture room of the First Baptist church. The subject for consideration will be "Sabbath Observance."

Mrs. Sallie Crouse, superintendent of this department, will conduct the service. The public is cordially invited.

### Pretty Honor to Paducah Bride in California.

The San Bernardino, Cal., Daily Sun in its issue of March 20, gives an elaborate account of a pretty reception introducing Mrs. Oscar Bertrand Jones, formerly Miss Kate Richardson, of Paducah, in that city, which in part is as follows:

"Yesterday afternoon from 2 to 6, Mrs. Harry Everett Jones, of 484 G street, received about 60 ladies, who were presented to Mrs. Oscar Bertrand Jones, the charming bride, who arrived last week from her Kentucky home, and whose personality has made a delightful impression on all who have met her in this city, which is to be her future home.

Among the ladies assisting Mrs. Harry Jones, was Mrs. Lucy W. Jones, Master Paul Jones gallantly received the guests at the door. A wealth of bridal wreath was used in the parlors. Cream and white roses were the other flowers used. In the reception hall the punch table was daintily decorated in smilax and bridal wreath. White and yellow formed the pleasing color scheme in the dining room where white sweet peas, fox gloves and yellow mazarines were gracefully arranged. In the delicious ices and dainty refreshments the same color motif prevailed. An informal musical program was rendered during the afternoon. In the evening Mr. and Mrs. Harry Jones entertained the ladies of the receiving party and gentlemen at a dinner. The table decorations were pink sweet peas. Covers were laid for twelve.

### Delphic Club.

The Delphic club met this morning at the Carnegie library. It was an interesting meeting. "The Spanish Schools of Painting" was agreed upon for discussion by Mrs. Annie Hughes Morrow. "Modern Art in Spain" by Goya, Fortuny, and Velasquez" was featured by Miss Ethel Morrow.

The Delphic club has about completed the case of 60 books, which form a "Traveling Library," sent out under the auspices of the Woman's Federation of clubs. These libraries

go up in the mountains of Kentucky and pass from place to place, doing untold good. It is a very beautiful work and the Delphic club has been much interested in making up the library that will go in its name.

## IN THE COURTS

### In Bankruptcy.

William J. Whitehead, the restaurant proprietor, yesterday filed a petition in bankruptcy, scheduling liabilities to the amount of \$1,900 with assets listed at \$1,600. The restaurant will continue open.

No agreement has been reached with the creditors of the bankrupt Michaelson estate for a composition. B. Michaelson made bond yesterday to pay \$3,500 for the stock, but this was not accepted. The stock will be sold by the trustee Thursday.

### Deeds Filed.

Daisy Gipson and Nute Gipson to John Herndon, property in McCracken county, \$200.

James C. Utterback and wife to James Campbell, Jr., and wife, property in the Afton Heights in Arcadia, for \$5 and other considerations.

### ROMANIAN TROUBLE.

Peasants Are Temporarily Beyond Control of Government.

Bucharest, March 26.—That the revolted peasants of Roumania are at least temporarily beyond the control of the government forces in the field is amply evidenced by the stories of pillaging and incendiarism coming in from all parts of Moldavia and Walacha. There have been several serious conflicts between peasants and troops, notably at Baces, in the district of Vaslui, where 2,000 peasants armed with rifles and revolvers attacked a company of soldiers. The troops fired several volleys killing 40 peasants and wounding large numbers, but the soldiers were so greatly outnumbered that they finally were obliged to retreat.

### SOUTHERN PEANUT CO.

Is Dismissed in Police Court On Charge of Nuisance.

Prosecution of the Southern Peanut company for the alleged maintenance of a nuisance, consisting of the dust from its factory, First and Washington streets, was dropped in the police court this morning. Superintendent Holmes, of the Paducah Water company, and other neighbors are the prosecutors. A suit is pending in the circuit court and the peanut company has filed a petition praying for an injunction restraining the prosecution. It was this proceeding that headed off police court action. The plaintiffs complain that dust from the peanut plant makes it unhealthy and disagreeable in the neighborhood.

### DRUMHEAD COURT-MARTIAL.

Is Considered and Denounced By the Douma.

St. Petersburg, March 26.—The question of drumhead court-martials, the institution of which forms the bitterest grievance of the Liberals against the Tsyolyn ministry, was raised in the lower house of parliament today on a motion of the Constitutional Democrats for the appointment of a committee to draft and submit immediately a bill providing for the abolition of this summary procedure.

Mrs. Mary Beadles III.

Mrs. Mary E. Beadles, one of the pioneer residents of Paducah and a well known and popular woman, is very ill at her home, 209 North Fifth street. She became unconscious yesterday and there is no improvement in her condition today. She had been ill for several weeks but was better until Sunday she had a relapse and has been sinking since. While Mrs. Beadles is possessed of a vigorous vitality her age, 83 years, is against her. Her two daughters, Mrs. James E. Wilhelm, of Paducah, and Mrs. George Bains, of Birmingham Ala., have been with her throughout her illness.

## EXTERNAL EVIDENCE OF INTERNAL POISON

Whenever a sore or ulcer refuses to heal, it is a sure sign of a diseased condition of the blood. The sore itself is simply an outside evidence of some internal poison, and the only way to cure it is to remove the deep underlying cause. Sores and Ulcers originate usually from a retention in the system of bodily waste matters and impurities. These should pass off through the natural avenues of waste, but because of a sluggish condition of the different members they are retained in the system to be taken up by the blood. This vital fluid soon becomes unhealthy or diseased, and the skin gives way in some weak place and a Sore or Ulcer is formed. The constant drainage of impurities through a sore causes it to fester, grow red and inflamed and eat deeper into the surrounding flesh, and often there is severe pain and some discharge. S. S. S. is the remedy for Sores and Ulcers. It is nature's blood purifier, made entirely of vegetable matter, known to be specific for all blood diseases and disorders. S. S. S. goes down to the very bottom of the trouble, and removes the poison and impure matter, so that the sore is no longer fed with impurities; but is nourished and cleansed with a stream of healthy, rich blood. Then the place begins to heal, new flesh is formed, the inflammation subsides, and when S. S. S. has thoroughly cleansed the circulation the place heals permanently. Special book on Sores and Ulcers and any medical advice desired will be sent free to all who write.

### FOUND GUILTY FOR THIRD TIME.

Murderer of Iowa Farmer Must Serve a Life Sentence.

Sibley, Iowa, March 26.—Charles Rocker, accused of the murder of August Schroeder, a Lyon county farmer, hanged for the third time been found guilty of murder in the first degree and his punishment fixed at life imprisonment. The jury went out at midnight and returned a ver-

dict this afternoon after fourteen hours deliberation. Rocker heard the verdict without the least show of emotion. The defense will file a motion for a new trial.

## DOCTOR'S ALL AGREE THIS TIME.

The most eminent writers on *Materia Medica*, whose works are consulted as authorities and guides in prescribing by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, laryngeal, and bronchial affections attended by lingering, or hang-on-coughs that has any such professional endorsement—worth more than any amount of lay or non-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrhal, throat, laryngeal and bronchial affections, it is a most efficacious remedy. In cases accompanied with wasting of flesh, night-sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected or badly treated are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes as catarrh, wheezing of the nasal passages or of the stomach, bowels or bladder. Even in its ulcerative stages it will tend to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" regularly, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," grinding or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot breads and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby eradicating pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt rheum, hives and other manifestations of impure blood. In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 603 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has

been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value.

Some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed among the most valued by the Indians for similar ailments affecting their women. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Sagwa-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for healing ulcerations, regulating all the womanly functions, correcting displacements, as prolapsus, and relieving the suffering of the nerves and bringing about a perfect state of health. Sold by all dealers in medicines. Dealer to endeavor to palm off upon you some nostrum of unknown composition in place of Dr. Pierce's world-famed medicines which are of known composition. Most dealers recommend Dr. Pierce's medicines because they know the ingredients are made of, and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend these medicines, since they know exactly what they contain and that their ingredients are the very best known to medical science for the cure of the several diseases for which they are recommended.

With tricky dealers it is different. Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute of unknown composition and without any particular record of cures in place of Dr. Pierce's medicines which are of known composition and have a record of forty years of cures behind them. You know what you want and it is the dealer's business to supply that want. Insist upon it.

## DROWNED

COLORADO DECKHAND ON THE BOAT STEPS INTO RIVER.

Efforts To Rescue Him Prove Unavailing and He Sank From Sight.

Thomas Parker, a negro deck laborer on the Ayer & Lord tie boat Margaret stepped off the boat yesterday afternoon with a can of ice and was drowned before aid could be given him. The negro was assisting in loading the boat and spotted a boat and stepped aside on the gang plank to make way for another member of the crew. Ropes and plank member of the crew. Ropes and planks were thrown out to him but he sank from sight before they reached him. Parker had lived about Paducah for years and had borne an excellent reputation. The accident occurred between Jefferson street and Broadway just below the wharfoat.

### STUDENTS KILLED

Six College Boys Meet Sudden Death When Cars Collide.

Los Angeles, Cal., March 26.—A special train on the Atchison, Topeka and Santa Fe railway, carrying scores of students home from an intercollegiate field meet at Claremont, collided head-on with the outbound Limited No. 2 while both trains were moving at a rapid rate, within the city limits here last night. Six persons were killed and 17 injured, several fatally.

Both engines, one baggage car on the "Overland Limited" and the smoker on the special, were demolished. The crash was terrific and heard for blocks.

The dead: C. G. FRANKLIN, student University of Southern California. A. H. EDWARDS. MAJOR C. GALL. FRED HODGSON, student at the Occidental college.

Workers at the wreck stated today that they were convinced that at least two more bodies are under the smoker.

The injured, with few exceptions, are residents of Los Angeles and vicinity. Among the hurt are Eugene Estoppel, winner for the two mile race at the field meet. The collision occurred under the Buena Vista street bridge.

### CANDIDATE ARRESTED 36 TIMES.

Nominee for St. Louis House of Delegates Has Remarkable Record.

St. Louis, March 26.—Frank Hussey, Democratic candidate to succeed himself as member of the house of delegates from the Twenty-second ward, has been arrested 36 times during the past ten years on charges ranging from idling to highway robbery and assault to kill.

A nolle prosequi was entered today in the case in which Hussey was charged with assault to kill on Deputy Sheriff Seidel, Nov. 2, last. In only one instance have the police brought about Hussey's conviction. That was on a peace disturbance charge, when he was fined \$5 and costs.

Many charges against Hussey were dismissed because of "lack of evidence." In other instances Hussey escaped conviction on the plea that he was a victim of police persecution.

Hussey has been in the saloon business with his half-brother, "Lawyer" Daley, whose police record defeated him for the office of constable in the recent November election.

### SAYS VACCINE INOCULATION WILL CURE TUBERCULOSIS

Boston, Mass., March 26.—The experiments with vaccine inoculation as a remedy and cure for tuberculosis which have been made for some time past by the professors of Tufts Medical school and the pathological department of the Massachusetts General hospital have reached such a stage as to warrant the belief that hope can be held out to victims of the great white plague.

The investigations have been conducted with a view to obtaining a vaccine that will so strengthen the disease resisting properties of the human blood that death from tuberculosis in any form shall be occasional instead of common.

## APPEAL IN VAIN

CHARLES STAMPER MUST GO TO PENITENTIARY.

Jury Gives Him No Mercy, Even Though He Informed on His Companions.

Lexington, Ky., March 26.—Chas. Stamper, who has been in the Lexington jail for about a year, awaiting the result of the action of the court of appeals in his case, will be taken to the penitentiary tomorrow to begin a term of nine years, the higher court having confirmed his sentence.

Stamper was one of the Stamper brothers who, nearly two years ago, robbed the Willard Bank in Carter county. The robbers were captured and confined in the Carter county jail, but had been there but a short time when they broke out, and all but Charles Stamper escaped. The latter refused to leave with the rest of the gang, and next day gave the officers information which resulted in the recapture of his brothers and their pals who were subsequently convicted and given sentence of four years in the penitentiary, which they are now serving.

Charles Stamper was tried separately, it being supposed that his aid to the officers would count in his favor, but to the surprise of the officials he was given nine years, more than twice as heavy a penalty as the pals he had helped to capture. He took an appeal.

### EASTER WITHIN MEN'S HEARTS.

Great Festival Part of the Nature of Mankind.

Once more with the revolving year comes back Easter festival celebration throughout earlier ages of the triumph of spring with its genial sunshine, its flowers, its mating birds, over winter with its chill arrest of life, of color, of perfume, of music. Today, however, it returns, no longer as mere literal, but symbolic festival season—radiant garment of a deeper spiritual content. Man must have his glorious realm of symbols, in which mind, heart and imagination live and move and have their being—shrines of incarnation in which tabernacles his tenderest yearnings, instinctive impulses of faith, seemingly divine intimations.

"My heart leaps up when I behold A rainbow in the sky!"

So cried Wordsworth in transport of spirit. Yes, and so, thank God, in like transport, cry we all of us, in answering chorus. Is not this because of the universal, leaping, bounding and exulting impulse that is an essential part element of our own natures as much as of His; as indestructible a property of our very fiber of being as is elasticity in that of a rubber ball; the harder the throw to the flinty earth, the higher the more resilient the rebound. Indeed, is it not we ourselves who, as vital portion of eternal creative spirit, call out through our own power of high-wrought emotion the whole diapason of the rainbow's glory? The sun that transfigures the else mere dank and dripping raindrops into ineffable bow of promise, are not we that call and but for the inner transfiguration thus evoked, were it not vain to concentrate an endless duration of so-called rainbows on the eye, with no result but a dreary, monstrous world of mist-drip to dwell in?

There is lots of money here and the large stores and fashionable dress-making shops were flooded with orders for spring dresses. The tailors decided it would be a good time to strike for a better wage scale. Heretofore the tailors have worked under a scale which covers six-week periods in each season of the year. They now demand a scale for the entire year.

The employers, including Joseph Horne & Co. and McCreery & Co., refused to grant the demands of the workmen, who walked out yesterday regardless of the fact that dozens of gowns for Easter were unfinished. It is said that the strike is general in several of the large cities of the country.

While the Pittsburgh women are bemoaning the strike, their husbands are chuckling and trying to figure out how much they will save because their wives can't buy new gowns.

### WOE, TEARS AND SIGH: NO GOWNS FOR EASTER.

Pittsburg, March 26.—The fashionable women of Pittsburg are in an awful plight. And there is no sign of relief. Scores of the city's fairest are suffering terrible mental agony. It is because the heartless men who construct tailor-made gowns went on strike yesterday. As the result there will be but few tailored gowns worn in Pittsburg this Easter. Hence, woe!

There is lots of money here and the large stores and fashionable dress-making shops were flooded with orders for spring dresses. The tailors decided it would be a good time to strike for a better wage scale.

## THE Masquerader

By KATHERINE CECIL THURSTON,  
Author of "The Circle," Etc.

Copyright, 1904, by Harper & Brothers

(Continued from Yesterday.)

"Eve," he exclaimed suddenly, "if you only knew, if you only guessed what I'm trying to say!" The perplexity, the whole harassed suffering of his mind showed in the words. Loder, the strong, the resourceful, the self-contained, was palpably, painfully at a loss. There was almost a note of appeal in the vibration of his voice.

And Eve, standing by the fireplace, heard and understood. In that moment of comprehension all that had held her silent, all the conflicting motives that had forbidden speech, melted away before the unconscious demand for help. Quietly and yet quickly she turned, her whole face transfigured by a light that seemed to shine from within—something singularly soft and tender.

"There's no need to say anything," she said simply, "because I know."

It came quietly, as most great revelations come. Her voice was low and free from any excitement, her face beautiful in its complete unconsciousness of self. In that supreme moment all her thought, all her sympathy, was for the man—and his suffering.

To Loder there was a space of incredulity; then his brain slowly swung to realization. "You know?" he repeated blankly. "You know?"

Without answering, she walked to a cabinet that stood in the window, unlocked a drawer and drew out several sheets of filmy white paper, crumpled in places and closely covered with writing. Without a word she carried them back and held them out.

"He took them in silence, scanned them, then looked up.

In a long, worthless pause they met. It was as if each looked speechlessly into the other's heart, seeing the passions, the contradictions, the shortcomings, that went to the making of both. In that silence they drew closer together than they could have done through a torrent of words. There was no asking of forgiveness, no elaborate confession, on either side. In the deep, eloquent pause they mutually saw and mutually understood.

"When I came into the morning room today," Eve said at last, "and saw Lillian Astrupp reading that telegram nothing could have seemed farther from me than the thought that I should follow her example. It was not until afterward—not until he came into the room—until I saw that you, as I believed, had fallen back again from what I respected to what I despised—that I knew how human I really was. As I watched them laugh and talk I felt suddenly that I was alone again—terribly alone. I—I think—I believe I was jealous in that moment!" She hesitated.

"Eve!" he exclaimed.  
But she broke in quickly on the word. "I felt different in that moment. I didn't care about honor or things like honor. After they had gone it seemed to me that I had missed something—something that they possessed. Oh, you don't know what a woman feels when she is jealous!" Again she paused. "It was then that the telegram and the thought of Lillian's amused smile as she had read it came to my mind. Feeling as I did—acting on what I felt—I crossed to the bureau and picked it up. In one second I had seen enough to make it impossible to draw back. Oh, it may have been dishonorable; it may have been mean, but

connected with this great discovery—was not even suggestive of it. It was something quite immaterial to any real issue, but something that overshadowed every consideration in the world.

"Eve," he said, "tell me your first thought—your first thought after the shock and the surprise—when you remembered me."

There was a fresh pause, but one of very short duration; then Eve met his glance fearlessly and frankly. The same pride and dignity, the same indescribable tenderness that had responded to his first appeal, shone in her face.

"My first thought was a great thankfulness," she said simply. "A thankfulness that you—that no man—could ever understand."

## CONSULAR EXAMINATION HELD

Tennessee Man Heads List of Ten Successful Candidates.

Washington, March 26.—As a result of the first examination under the new law for appointment to the consular service, the names of ten successful candidates were announced to the state department today. They have been placed on the eligible list and will be assigned to fill vacancies now existing in the consular service, of which there are thirteen. Civil service rules were observed except that the examination was not competitive. The subjects on which the candidates were required to pass written examination included modern language, international law, maritime and commercial law and questions relating to commerce, political economy and history.

Missed the Automobile.  
A Connecticut man was knocked down by a runaway horse and run over on his way home from work. Escaping unhurt, he started across a railroad trestle to save time, was struck by a freight engine and hurled into a river, escaping death by a narrow margin. He celebrated his good fortune by playing a harmonica at a christening the same night, but declined to tempt fate further by taking a ride on a passenger train.—New Orleans Times-Democrat.

## SHORT TALKS BY L. T. COOPER

INTERNAL PARASITES.

Coopers New Discovery has taught me many things, not least of which is that parasites or tape worms as they are called are responsible for an immense amount of suffering. Thousands of these creatures have been brought to me by people who have taken the New Discovery and I now know that an immense amount of supposed stomach trouble is caused in reality by one of these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does so. The following letter is a fair sample of the symptoms as experienced by an individual thus affected:

"I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good night's sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue. I heard of the wonderful benefits that were being derived from Cooper's New Discovery, and decided to try it."

"The horrible tape worm, sixty feet long that had been sapping my life away; passed from my system alive and squirming after I had taken three doses. Now I have a splendid appetite, every trace of stomach trouble has disappeared, and my digestion is good. I sleep well and am gaining in strength every day." NATION WORTH \$107,104,192,410.

Country's Wealth Placed at Enormous Figure in Government Report.

Washington, March 26.—The official report just issued by the census bureau estimates the national wealth in 1904 at \$107,104,192,410, as compared with \$88,517,396,775 in 1900. The bulk of this wealth consists of real property and improvements (taxed, valued in 1904 at \$55,510,228,057. Railroads and their equipment in 1904 were valued at \$11,244,752,000 and street railways at \$2,219,966,000; agricultural product \$1,899,379,652, and manufactured products at \$7,499,291,688.

The report places net public indebtedness in 1902 at \$2,789,990,120, upon which the annual interest charge approximated \$116,206,558. Total assessed valuation in 1902 is given at \$36,338,316,833. National, state and municipal receipts are stated at \$1,709,126,540 and expenditures at \$1,704,430,960.

Over 75 per cent of all government receipts came from taxes on general property and about 6 per cent from liquor licenses.

TWO MEN SLAIN IN OFFICE

San Antonio Real Estate Dealer Is Held For Double Murder.

San Antonio, Tex., March 26.—Franklin E. Smith, a prominent real estate dealer, and Edward Beversdorf, his stenographer, are dead, and E. J. Wilson, another real estate man, is in jail charged with murder and assault as the result of a shooting affray in one of the largest buildings of this city today. A business difference is assigned as the cause of the shooting. Beversdorf was sitting at his desk next to that of Smith when Wilson fired. The stenographer was shot through the heart. Three other shots were fired, all striking Smith, one passing through the throat, proving fatal.

Knew Their Names.

"Bobby's mother had taken him to church, says the Youth's Companion, to hear the evening sermon and they occupied seats in the gallery, where there was more room than on the main floor. Bobby tried not to allow his attention to wander from the preacher, but it did. He seemed to be particularly interested in a family who sat in front of him, and when the sermon was about half over he whispered to his mother:

"Mamma, I never saw those people before, but I know their name."

"Hush, dear."

"But I do," persisted Bobby. "Their name's Hill."

"How do you know?"

"Every time the preacher says his text, 'I will lift up mine eyes into the hills,' those two girls look at each other and smile."

Subsequent inquiry proved that Bobby was right in his guess.

## CARDINALS

APPOINTED BY INSPIRATION OF POPE, NOT BY FAVOR.

Consistory Meets April 15, But No Americans Are to Receive Red Hats.

Rome, March 26.—The pope has decided to hold a consistory April 15 and create six cardinals—namely: Mons. Cavallari, the patriarch of Venice; Mons. Rinaldini, the papal nuncio to Spain; Mons. Lorezani, the papal nuncio at Paris; Mons. Lualdi, archbishop of Palermo; Mons. Mercier, archbishop of Malines, and Mons. Maffi, archbishop of Pisa. The last named will be transferred to Rome.

James E. Quigley, archbishop of Chicago; Thomas F. Hickey, coadjutor bishop of Rochester; Bishop O'Gorman, of Sioux Falls, and Archbishop Seton were informed of the approaching consistory today. It can be said that the list of six new cardinals is a disappointment to Americans, as the United States considers itself entitled to larger representation in the sacred college than it now has—namely, one cardinal. It is recalled that the United States in numbers, is the fourth Catholic power in the world.

Various reasons are given in vatic circles for the appointment of these six new cardinals, and it is explained further that cardinals are not created to satisfy national desires, but as a result of the inspiration of the pontiff, who is guided by individual merit.

Shortly after Easter the American archbishops here will meet and discuss the best way to augment the Peter's pence contribution. It is proposed to raise these contributions from \$100,000 to \$1,000,000, making good to this extent the losses the vatican has sustained in France.

## Asthma

is extreme difficulty in exhaling air from the lungs, a terrible sensation of long, slow suffocation, caused by uric acid irritation of the tiny pockets in which the blood takes oxygen from the air you breathe.

There are millions of little air pockets in your lungs. When you take a breath, the air enters them through tiny openings which close tight while the blood gives off carbonic acid gas, and takes up oxygen. You then relax the muscles and let the exhausted air out. But if it happens that your blood contains an excess of uric acid, a spasm of the muscular walls of these little air pockets occurs, and the air cannot be expelled. Nothing can be more distressing than an attack of asthma.

A temporary relief is sometimes given by pungent inhalations, but asthma is impossible to cure except by removing the cause—the uric acid. LIFE PLANT has the power of dissolving uric acid crystals. LIFE PLANT passes right into the blood and gently and swiftly dissolves the uric acid wherever it may be lodged. If you suffer from asthma, take LIFE PLANT; it immediately goes to work removing the uric acid cause. Read this proof:

I have had catarrh and asthma, and finally this summer I had rheumatism. Although I have not taken all of one bottle of Life Plant, yet the asthma has left me, catarrh nearly gone, and rheumatism better.

## SUIT OVER BURIED TREASURE.

Indiana Farmer Said to Have Dug Up and Appropriated \$30,000.

Evansville, Ind., March 26.—The case of Walter Carson, as administrator, against Jacob Zeigler, a farmer of this county, will be resumed in the superior court tomorrow. Carson is suing for the recovery of money which belonged to the mother and brother of Zeigler, who died three years ago.

A short time before the mother and brother died they came to Evansville and drew about \$30,000 out of the banks, and it is supposed they buried it in the ground on the Zeigler farm. A few weeks ago Zeigler sent a package of money, \$2,000 in all, that had been buried in the earth, to the treasury department at Washington.

and got new bills for that amount. Zeigler claims the money belonged to his wife, who had buried it, and that his son dug it up. Carson alleges Zeigler dug up the \$30,000 and converted it to his own use.

## TAFT MAY FORCE BATTLE IN OHIO

### Brother Charles is Sounding Popular Sentiment

Burton, of Cleveland, Is Being Starred, and Foraker Made to Feel Lonely.

### PRESIDENTIAL FIGHT IS ON.

Washington, March 26.—Since President Roosevelt has been openly credited with favoring William H. Taft for president, the political pot has been boiling over, at least, it has been in a state of activity seldom witnessed so long before convention time. With the secretary of war's boom being furnished by the administration, Vice President Fairbanks doing a few stunts at the big St. Patrick's day celebration in Chicago, Foraker bending away at the Brownsville investigation and laying his plans to capture Ohio, La Follette jumping all over the country making chau-tauqua speeches, in which politics plays a big part, and the other candidates all busy, with the exception of "Uncle Joe" Cannon, who is in the West Indies, there is something doing.

Ohio, for the time being, is the center of interest. To capture the home delegation is the first and most vital task Secretary Taft has before him. So far the president's hand in the matter has only increased the bitterness between the Taft followers and the regular organization, led by Senators Foraker and Dick. It looks as if the plan on the part of the administration has been to force the fighting and bring about a definite alignment of forces, with the idea of putting Senator Foraker on the defensive by threatening his seat in the senate.

**Burton After Foraker's Seat.**  
Representative Theodore E. Burton, of Cleveland, one of the most prominent men in congress, has been trotted out as a senatorial candidate. Aside from the general plan to secure the Ohio delegation for Taft, Burton has his own ends to serve in coming out for Foraker's toga. He really wants to be senator, and it suits his purpose exactly to put Foraker in the position of antagonizing the president.

But the making of Burton senator is only incidental to the Taft movement. If the old organization under Foraker and Dick can be routed, and to accomplish this end Foraker must be defeated for re-election, well and good. But if it will be necessary to make peace with the organization and assure Foraker his seat in the senate, then Mr. Burton will not be seriously considered and will be brushed aside.

This is undoubtedly what the administration is aiming at in Ohio. The president wants to force Foraker and Dick into line or put them into such a position, by the preliminary maneuvering, that they will be in a mind to consider overtures of peace. Foraker's personal popularity is great in the Buckeye state. He has a large personal following, and the rank and file of Ohio Republicans feel a just pride in his prominence and accomplishments. This was shown at the last state convention at Dayton, when Burton for the first time loomed up as a leader of the opposition.

He tried to have Foraker discredited for his course in the senate in opposing the president, especially on the rate bill. He raised the issue of endorsing the president more enthusiastically than Foraker, and was beaten to a standstill.

Instead of showing symptoms of a truce, Foraker denounced the "favorite son" plan credited to the president; then, in a few days, came denials of the Taft-Deneen story, and the announcement that the appointment to the new Ohio federal judgeship had been given to an anti-Foraker man. This was immediately followed by the launching of a formal boom for Burton for senator to succeed Foraker. And the only result, so far, has been to rouse all the fighting blood in the senior senator from Ohio, and that he is a good fighter no one will deny.

**Still Probing Brownsville Riot.**  
In the meantime Senator Foraker is plugging at the Brownsville investigation. He is confident of winning in this matter. He believes before he gets through he will prove that the negro soldiers of the 25th infantry did not shoot up the Texas town, and, further, he expects to show who really did the shooting.

He believes this is another Dreyfus case, but instead of a single soldier being involved, there are 123 victims. The importance of the result of this investigation to the Ohio senator is

apparent. The chief weapon used against him in his home state is that he is opposed to the president and his policies. His failure in the present investigation would give Burton and his other enemies a new leverage to pry him out of his senatorial seat. If he wins, it will be a vindication that will go a long way to show that he might have been right in other matters in which he has gone counter to the administration, and also give his presidential aspirations no small boost.

**Herrick Joins Burton Boom.**  
In the new line-up, Gov. Herrick, who was with Hanna and Dick, broke away and went to the Burton opposition. This was bitterly resented by the Dick men, as their leader had stepped aside to let Herrick be nominated for governor at the request of Mr. Hanna, in the interest of harmony, in order to assure a solid McKinley delegation from the Buckeye state. Unless Burton wins, Herrick will not be heard from in Ohio politics for some time to come. Both these men live in Cleveland and are posing as the reform leaders of the state. An interesting development in the Ohio situation is the pending primary election law.

**Burton Being "Starred."**  
That the administration is starring Burton for the time being is shown by the invitation extended to him to be one of the Taft party that is about to sail for the isthmus of Panama. His mission is announced as one of great importance, as he has been entrusted with the complete reorganization of the local government affairs of the isthmus. He will also go to Cuba and see what is needed there, and before coming back will visit Porto Rico and deliver a message of hope and encouragement to the people there.

Charles P. Taft is handling the practical end of his brother's presidential boom. He is a newspaper publisher of Cincinnati. This fact lends assurance that the Taft campaign will not want for sinews. He has been actively at work for some time, and since the story of the conference between Gov. Deneen and the president about the Taft boom has been published he has made practically no concealment of the fact that he is engineering a movement to make his brother president.

**Fails to Get Elmer Dover.**  
It is understood that he tried to get Elmer Dover, secretary of the Republican national committee, to take this job. Mr. Dover is well up in the game of politics, although a comparatively young man, as he served a good apprenticeship under the late Senator Hanna, as private secretary and confidential man, for a number of years.

The last action taken by Charles P. Taft was at Cincinnati yesterday, when he announced that he had asked A. T. Vorys, of Columbus, one of the leading anti-Foraker men in the state, to discover the sentiment of the people of Ohio toward his brother's candidacy for the presidency. This move fits in exactly with all the other moves that have been made in rapid succession during the past week for Taft, and is the formal announcement of the war secretary's candidacy. In the course of a week it is expected that Mr. Vorys will tell Charles P. Taft that the people of Ohio want his brother for president, and the fighting will be in the open.

### QUARANTINE CANNON AT COLON Port Officials "Hold Up" Steamer Bluecher With Speaker.

Colon, March 26.—The Hamburg-American line steamer Bluecher, with Speaker Cannon and a number of congressmen on board, which sailed from New York on March 5 on a cruise through the West Indies, arrived here today and was quarantined, having called at La Guayra, Venezuela, where yellow fever is said to have appeared. None of the passengers will be allowed to land until tomorrow.

**Pious Canute's Lenten Law.**  
Among the laws of Canute in England in 1032 hunting was forbidden on fast days and Sunday, and a strict observance of Lent was enjoined, the law quaintly reading, "If any one, by fighting, marrying, plundering or the commission of any other flagitious crime, shall violate the fast to be kept in Lent, he shall pay a double compensation."

One of the things that go without saying is speechless amazement.

The Ohio's second rise of the year has about spent its force, the river men are happy. The gauge today registered 42.2, indicating a fall of .1 last night. This is slight, but enough. All points above, in the three rivers, show falling rivers, and the fall here should be greater from now on. The crest of the January rise was reached January 28th, when the gauge registered 45.7.

Business on the wharf and all along the river was active this morning. The Joe Fowler from Evansville was in early, and got away at 10 o'clock with big trips each way.

The Dick Fowler for Cairo and way points had a good trip, and was out on time.

The Joe Wheeler is at the foot of Ohio street undergoing some repairs, and will be ready for the return trip to Chattanooga tonight or tomorrow. The Memphis, out of the Tennessee river last night had a big freight cargo for Paducah and Joppa. She will start on the return to Waterloo today.

**French Policy Needs Change.**  
Paris, March 26.—Public opinion is generally exercised over the assassination at Morocco City of Dr. Mauchamp, which it is regarded should be the signal for a total change in the French policy in North Africa. The Temps urges the abandonment of the "flabby policy" in Morocco. The paper rehearses a long list of outrages on Frenchmen for which, it says, was never exacted.

**Will Seek Church Unity.**  
Oklahoma City, Ok., March 26.—Two hundred and sixty churchmen from the central southwestern states here last night formed a federation to work for the union of the north and south Methodist churches throughout the country.

**Will Boom Spanish Trade.**  
Madrid, March 26.—A decree embodying measures intended to encourage Spanish trade abroad and appointing agents in South America and Morocco has been signed by the king.

### EASTER FLOWERS.

How Florists Have Learned to Time Them to the Minute.

"One of the most interesting features of the florist's business is the timing of the blossoming of certain flowers to meet the requirements for church services on Easter," said one of the scientists of the United States agricultural department.

"So carefully have florists studied the system that by forcing the plants or retarding their growth by the withholding of water or sunshine they can calculate to a nicety the exact date, sometimes far in the future, upon which a certain plant will burst into blossom. Long experience in this line has enabled the florist in many instances to decorate a church with plants bearing buds the day prior to Easter and have them open their blossoms on Easter morning. To the uninitiated this statement may appear rather far-fetched, but, floriculture has been reduced to an exact science, which enables us to calculate the precise time required for the plant to blossom after it has put forth its first leaves. Naturally we have to make allowances for the condition of the plant upon which we are experimenting, but only in the case of unhealthy specimens are we ever more than a day out of the way."—Washington Star.
